3:00 pm—5:00 pm: Reverse Expo

Why You Should Care About Networking with Pharmacy Suppliers, Vendors and Manufacturers

The Reverse Expo is exactly what the name suggests: *a reversal of the traditional tradeshow format*. Hospital pharmacy decision makers (pharmacy directors and/or clinical managers) will each host a table while vendors walk the floor.

How It Works

In practice, the Reverse Expo concept is very similar to the common management process of a “Huddle”. Suppliers, vendors, and manufacturers, will have up to 3-5 minutes of one-on-one time with a hospital pharmacy decision maker before moving to the next pharmacy decision maker of their choice. This should be an ample amount of time for a vendor to identify a viable business opportunity, and also for a hospital pharmacy decision maker to recognize whether the product or solution will meet their needs. If you feel you need more time, you have the opportunity to finish your conversation during the Annual Meeting Exhibit Program.

During the Reverse Expo, your hospital pharmacy or health-system will have an ID sign on your table - clearly marking your facility, city and state, your name, and job title. Maps will be available to further facilitate easy navigation for vendors. Please remember to bring business cards with you.
